### Contact your advisor

Be sure to contact your advisor for any questions you may have. A good resource is the following link:

http://ns-advising.ucmerced.edu/

This program teaches biology as a multidisciplinary science, reflecting the increasing role of chemistry, physics, mathematics, computer science and advanced technologies in the life sciences. Students majoring in Biological Sciences can choose between five emphasis tracks providing backgrounds in different areas of biology: Molecular and Cell Biology, Ecology and Evolutionary Biology, Human Biology, Developmental Biology and Microbiology and Immunology. These emphasis tracks consist of a sequence of five or six upper-division courses

that are taken in the second, third and fourth years of the program.
