Welcome to UCDC

Computer Science and Engineering students at UC Merced work with the world's top computer scientists and engineers. Our faculty has developed a program of study that combines practical exposure to the most modern technologies available with a theoretical foundation that empowers students to master future changes and innovations as technologies continue to evolve at an astonishing pace.Bioengineering is a highly interdisciplinary field in which the techniques, devices, materials and resourcefulness of engineers are used to address problems in biology and healthcare; and lessons from biology are used to inspire design and inform progress in engineering.
