## Welcome to UCDC

The History major at UC Merced emphasizes the many ways in which connections between regions and nations have existed over time. All students gain a familiarity with world history, learn interpretive skills, and take at least one course focused on research, and also undertake a capstone research project; they have the opportunity to apply their classroom learning to research problems outside the classroom, where they can contribute to expanding public knowledge and awareness of cultural issues. Students may explore thematic topics such as environmental history, the history of science and technology, the history of migration and cultural intersections, as well as issues of world, national, state and local history.
